Understanding "CLOSE CONTACT"

For clarity:

Close contact is being within 6 feet for a cumulative duration of 15 minutes or more, with or without a mask.

What to do if you've been in close contact?

- Quarantine for 14 days after the last exposure with the COVID-19 case.
- Stay home from work/school AND maintain a 6 feet distance from others.
- Self monitor for symptoms of COVID-19 and do twice-daily temperature checks.
- Stay away from individuals with high risk for severe illnesses.
