Objectives

- To raise awareness and increase understanding about the impact of bullying
- To provide comprehensive prevention strategies to address the victim, bully and bystander
Aligns with ADE “Standards and Rubrics for School Improvement”

Bullying prevention addresses **Standard Four: School Culture, Climate and Communication**
TUSD Post-Unitary Status Plan

TUSD Department of Student Equity will provide professional development support and training to schools regarding bullying, so that school personnel are able to identify and minimize bullying among students.
Restorative Practices to Address Bullying Prevention Aligns with TUSD Post-Unitary Status Plan

• Goal is to implement a school-wide restorative culture and climate that convey respect, support, and a sense of belonging

• Build relationships, hold students accountable and repair harm
TUSD Bullying Prohibition and Prevention Policy

• Aligns with Arizona anti-bullying law

• Definition: The repeated intimidation of students by the real or threatened infliction of physical, verbal, written, electronically transmitted, or emotional abuse, or through acts on the property of another
What is Bullying?

Harassment?
Intimidation?
Lack of Respect?

Bullying is a form of violence in our schools today that is widespread and increasing.
Definition: Bullying occurs when a “person is exposed repeatedly and over time, to negative actions on the part of one or more persons,” and involves an imbalance of power between the bully and the victim.

Impact of Bullying

- 1 out of 4 students reports being bullied
- Bullying occurs once every 7 minutes
- 1 out of 5 students report avoiding the bathroom at school because they fear being bullied
- 10% of students dropout due to repeated bullying

Understanding the Problem

• 60% of those boys identified as bullies have a criminal record by the time they are 24 years old.
• Interpersonal violence is the second leading cause of death ages 15 to 24.
• In extreme cases, “bullying” has been named as the cause of both student suicide and student homicide.
• 3% increase in bullying, despite a decrease in assaults, thefts, and other crimes at school.

Source: U.S. Centers for Disease Control and Prevention

• 160,000 students missed school each day due to fear of bullying.

CHARACTERISTICS OF A BULLY

• Arrogance rather than confidence
• Ego Problem rather than healthy self-esteem
• Entitlement rather than achievement
• Lacks Empathy
Dynamics of Bullying
Who is Hurt?

- Victim?
- Bully?
- Bystander?
VICTIMS

- Fear of being bullied may lead to absenteeism, truancy or dropping out
- Grades suffer
- Decreased self-esteem
- As adults, victims are hesitant to take risks
- Violence against self or others
Types of Victims

- Provocative
- Passive
- Vicarious
BULLIES

• At-risk for long-term negative outcomes
• Attend school less frequently and are more like to drop out
• May be a sign of the development of violent tendencies, delinquency and criminal behavior
• Increased risk of substance abuse
• Lack of respect for law and authority
BYSTANDERS

Who are They?

- 85% of students are bystanders—neither the victim nor the bully
- Power to stop bullying lies with the bystanders
- May feel guilty or helpless for not standing up to the bully on behalf of the victim
- Fear reporting bullying incidents because the don’t want to be called a “snitch”
- May feel unsafe, unable to take action or feel a loss of control
Using A Comprehensive Approach to Reduce and Prevent Bullying

- Main focus on changing school climate that reflects RESPECT
- Teach skills and strategies to avoid victimization
- Teach skills to enable the “silent majority” to become the “caring majority”
- Address the bullying on all levels—administrators, teachers, staff, students, parents, and community
A comprehensive schoolwide approach involves 6 components.

• Staff Training
• Student Instruction
• Support For Victims
• Intervention With the Bullies
• Parent Support
• Developing the Caring Community
STRATEGIES FOR ADMINISTRATORS

• Use Restorative Practices to address bullying behavior (hold students accountable and provide opportunity to make things right)
• Promote a school-wide commitment to non-tolerance for bullying
• Develop school-wide policies and procedures
• Commit the necessary resources to the project
Strategies for Teachers

• Be aware of the extent of bullying and become involved in changing the situation
• Send a clear message that bullying will not be tolerated
• Establish and maintain a classroom in which all students feel respected and valued
• Intervene individually with bullies and victims, if you see a situation: stop it.
Strategies for Teachers

(continued)

• Listen sympathetically to students who need support when they are victims of bullying.
• Discuss and teach students social skills necessary to avoid becoming victims of bullies (assertiveness, problem solving and HA HA SO strategies).

- Brainstorm all sources of help at your school—counselors, teachers, administrators
- Stress the different ways to get help—anonimously, in a group, hotline
- Victim should look bully straight in the eye.
- Use “I” statements. *Example:* “I don’t like it when you pull on my backpack. Stop it.”
- Make assertive statement and walk away. *Example:* “Stop talking about me behind my back.”
- Use humor in a positive way.
- Make the joke about what the bully said, not about the bully.
- Make humorous statement and then leave the situation.
  *Example:* When insulted about hairstyle, say “Gee I didn’t know you cared enough to notice.”
- Best for situations when victim is alone.
- Avoid places where the bully hangs out.
- Join with others rather than be alone.
- Use as a means to keep feeling good about self.
- Think positive statements about self and accomplishments.
- Rehearse mental statements to avoid being hooked by the bully.
  *Examples:* “It’s his problem,” “She doesn’t know what she’s talking about.” “I know I’m smart.”
- Agree with the bully and leave the situation.
- Combine with humor strategies such as, “Yeah, this IS a bad haircut. The lawn mower got out of control.”
- Combine with assertive strategies such as, “Yes I did fail the test and I don’t appreciate you looking at my paper.”

**Important Reminders:**

1. Practice these strategies in any order, in any combination, or numerous times.
2. The Caring Majority can remind each other of the strategies.
3. The Caring Majority can help support the victim in using the strategies.
4. If the strategies aren’t working, leave or disengage from the situation.
Strategies to Use with Bullies

• Use a no-nonsense style. Be direct.
• Give brief, clear descriptions of unacceptable behavior and consequences.
• Do not have a long discussion of the situation.
• Help the bully to identify the victim’s emotions and build empathy for the victim.
• Re-channel power in a positive direction—do not try to suppress.
• See the culture for your school through the caring majority.
Faculty Lounge Scenario-Creative Problem Solving Strategies for Bystanders

Directions: Read the scenario below and discuss with others creative ways to solve the problem. Talk about low, medium, and high risk solutions.

Scenario: You’re in the faculty lounge eating lunch. You overhear a staff member at another table making negative and sarcastic statements about a colleague who is not in the room. This has been happening periodically since the first of the year. You’re worried that the statements he/she is making are starting to circulate throughout the building, and you have noticed that this kind of negative talk is spreading.

A – Adult Help
R – Relate and Join
E – Empathy
S – Stand Up and Speak Out
Strategies for Bystanders

- Refuse to join.
- Walk away when bullies are acting up.
- Distract the bully so he or she stops the bullying behavior.
- Report any bullying you see.
- Speak out.
- Stand beside the bully’s target.
- Work with others to reduce bullying.
