Zoom and Clever on Chromebooks

Getting logged in.

1. Start by launching Zoom from the app drawer. The icon to pull up the app launcher is the circle in bottom left corner of the screen. You will see Zoom appear as an app. If you do not see Zoom, you may need to click the arrow to pull up the entire App Drawer.

2. Zoom will launch. You will briefly see the following screen below (It auto-selects for you the option to “Login with SSO and fills in “tusd1”) before sending you to the Microsoft Sign in screen as shown in step 3.
3. On the Microsoft Sign in screen, you will type in your 10digitmatric@s.tusd1.org and then click “Next”

4. You will then be directed to type in your password like below. Again, use your full email address for the username and type your password. (Note: Your password was reset to your 10-digit matric number at the start of the school year. Simply type it in for your password.)
5. Next, you will be prompted if you want to stay signed in. Check the box for “Don’t show this again” and then click “Yes”

6. You are now signed into Zoom. Clicking Zoom invite links from Clever will now automatically launch in Zoom. **Keep going** to see the steps for **logging into Clever**. Alternatively, if you are sent a Meeting ID and Password, you can click “Join a Meeting” type in the Meeting ID supplied by the teacher, your name (which should autofill) and click “Join”
7. Signing into Clever. Now that you are logged into Zoom, you will need to get into Clever to access links and other resources that your teacher has shared with you. Start by launching Chrome, the colorful icon in the center of the screen. Once Chrome is open, click in the Omnibox and type “clever.com/in/tusd1”.

8. You will be directed the TUSD login screen for Clever. Click “Log in with Network Credentials” to proceed.
9. Again, you will be presented with the Microsoft Sign in page. Type your full student email address again (10digitmatric@s.tusd1.org) and then click “Next”

10. Confirm your password and click “Sign in” to proceed. (Again, this is your 10-digit matric number until changed at the start of the school year)
11. Once logged in, you will be directed to the Clever home page. Here you will find your teacher pages and access to district resources. Zoom links will be on the individual teacher pages. Click on your teacher to find the link to connect to Zoom.
