How to Join a TUSD Zoom Class Meeting (PC)

Accessing a Zoom Class Invitation Link

There are three great ways that a teacher can invite their whole class to a recurring Zoom meeting. Your teacher will let you know which approach they are using:

1) On their Clever Teacher Page
2) Through their Class Team in Office 365 Teams
3) Through an Outlook invite (also accessible through Office 365)

For all three, students should start on the TUSD “Learn From Home” Page (http://www.tusd1.org/LearnFromHome).

Click on the Clever or Office 365 icon at the top of the page. (If it seems like you are already logged into Clever, Office 365 or Zoom but it’s the wrong account, see our documentation on “How To Log Out of Office 365 and Zoom COMPLETELY.”)

(For Clever, you’ll see this page—click on “Log in with Network Credentials”)

For both Clever and O365, you will be asked to pick an account to log into. If the student is logged into a TUSD device, their account should be the one “Connected to Windows.”
How to Join a TUSD Zoom Class Meeting (PC)

You may also be asked to enter a password:

If your teacher invite is in Clever, find the Zoom icon on your Teacher’s page.

If your teacher invite is in Office 365, find your invite in Outlook or Teams.
Joining a Zoom Meeting from an Invite link (O365, Clever)

When you click on a Zoom meeting invite in Office 365 or Clever, you may have to re-confirm your TUSD Single Sign-on (SSO), but you shouldn’t have to re-enter your password.

When you click “Open Zoom,” you will enter the waiting room from where the teacher can let you into the class.
