## **TUSD Enhances Student Health Services with New SNAP Parent Portal**

*Tucson, AZ, August 6, 2025*— As we start the new school year, the Tucson Unified School District (TUSD) is committed to offering a better experience to families regarding their students' health in school. TUSD is pleased to announce the full implementation of the SNAP Parent Portal, an online tool designed to help parents and guardians stay connected with the TUSD Health Office.

The SNAP Parent Portal is an integral part of the new electronic health record (EHR) system. This system helps keep student health information safe and organized. The Parent Portal, which was rolled out in March 2025, makes it easier for parents to share important health information about their child and communicate with school health staff.

We encourage all parents and guardians to enroll in the SNAP Parent Portal. The benefits of enrolling include:

- **Easily update your student's health information as it changes.**
- **Upload healthcare provider orders and vaccination records.**
- **Direct message with the healthcare team at your school.**
- **Receive health-related announcements.**
- **Download forms, fill them out, and return them to the health office.**
