

System 44 Simulator Access

To experience *System 44* as a student and teacher, use the site and login credentials below:

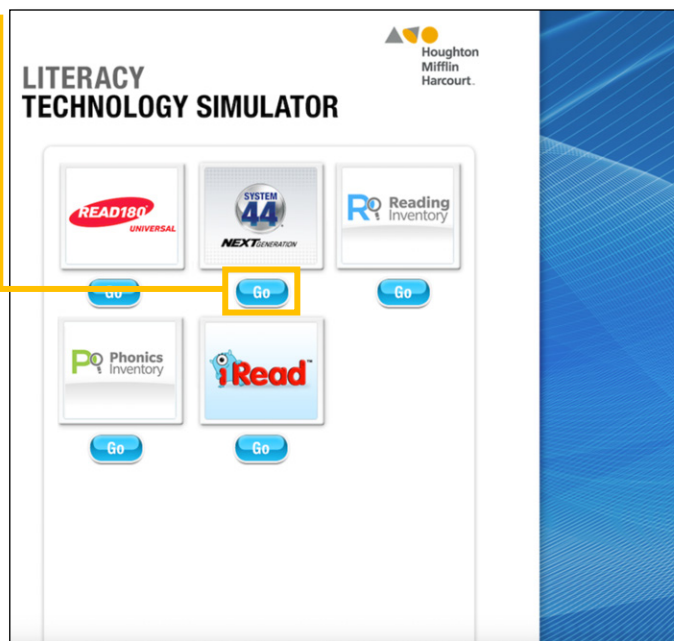

<https://literacysim.education.scholastic.com>

UN: hmh
PW*: read12

*The password changes each month (i.e., read01 for January, read02 for February)

Select the **Go** button underneath the *System 44* icon.

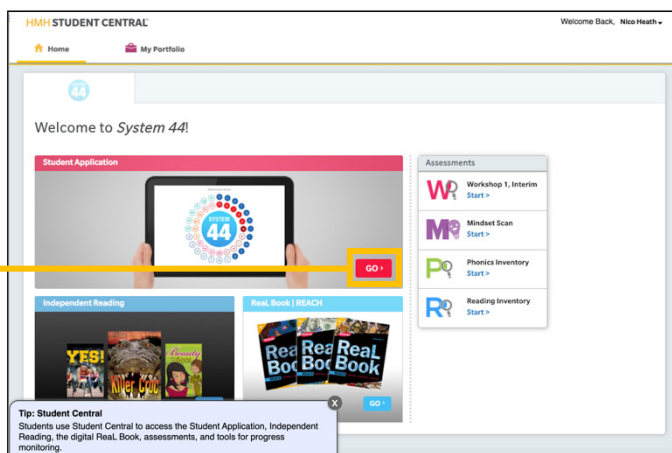

Select **Student Experience** to begin.

Take time to review the dashboard. Notice that there are four areas to access as students: **Student Application**, **Independent Reading**, **Real Book**, and **Assessments**.

Click on the **GO** button within the Student Application section to learn more about the student software experience.

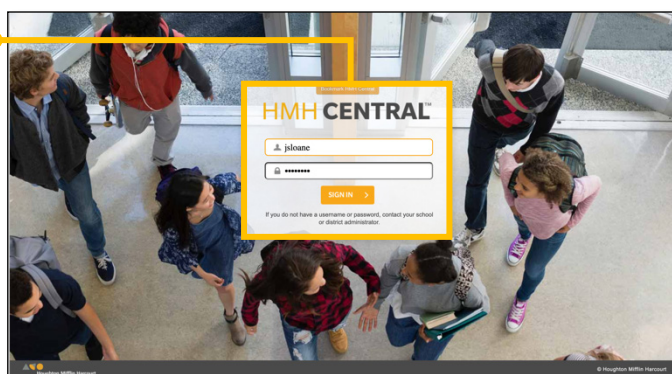

This will bring up the HMH Central sign in page. Use the credentials below to sign in, which will launch the **Student Software Demo**.

Username: **jsloane2243**
Password: **Welcome1**

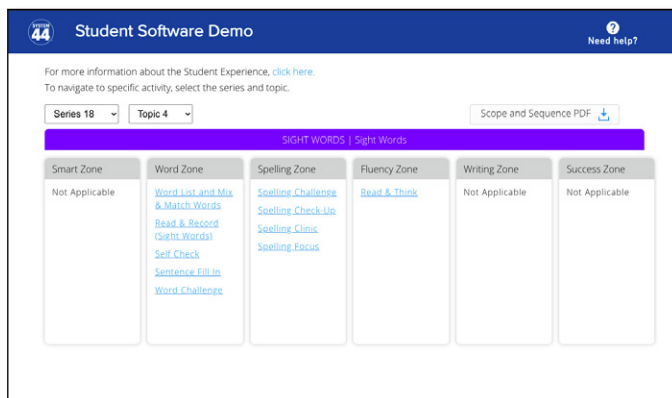

Username: **jsloane2244**
Password: **Welcome1**

If you have logged in previously, you will not need to sign in again.

The **Student Software Demo** allows a user to select any Series and Topic, then select any related activity to explore as a student.

NOTE: This is menu screen is NOT the same zone menu that students see. The demo view is only visible to teachers as way to explore different activities within the software.

If this is your first time accessing the **Student Software Demo**, begin by accessing the PDF resources included in the different areas on screen. They provide detailed information about the Scope and Sequence, Student App activities, and provide links to videos.

The screenshot shows the 'Student Software Demo' landing page. Callouts highlight the following elements:

- Need help?** button in the top right corner.
- click here** link for more information.
- Scope and Sequence PDF** download link.
- Series 18** and **Topic 4** dropdown menus.
- System 44 Scope and Sequence ACTIVITY MATRIX** table.
- Getting to Know the Instructional Software** document.
- Fast-Track Assessment** section.
- Progressing Through** section.
- Welcome to the System 44® Student Software Demo!** text.
- Get Started** section with links to 'System 44® Overview' and 'Strands Overview'.
- Prepare for Activities** section with links to 'Code Strand', 'Sight Words Strand', 'Word Strategies Strand', and 'Writing Strand'.

Now, explore a variety of activities from the software, by selecting a **Series** and **Topic**, from the drop-down menus and then selecting an activity.

Only activities related to the Series and Topic combination will load.

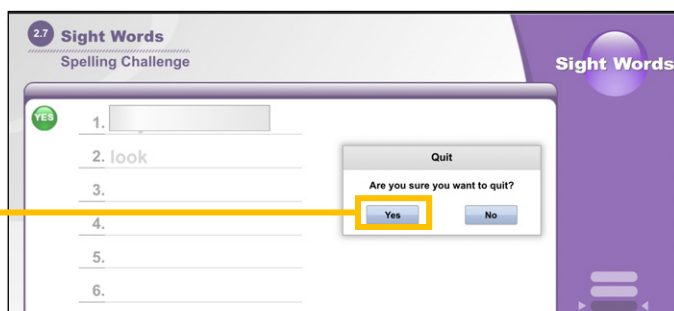

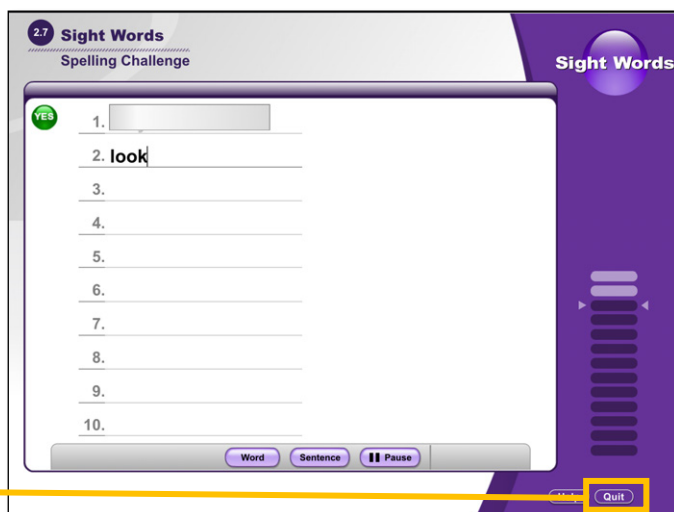

The screenshot shows the 'Student Software Demo' interface with the 'Series 18' and 'Topic 4' dropdown menus selected. The main content area displays a grid of activity cards under the heading 'SIGHT WORDS | Sight Words'.

Smart Zone	Word Zone	Spelling Zone	Fluency Zone	Writing Zone	Success Zone
Not Applicable	Word List and Mix & Match Words Read & Record (Sight Words) Self Check Sentence Fill In Word Challenge	Spelling Challenge Spelling Check-Up Spelling Clinic Spelling Focus	Read & Think	Not Applicable	Not Applicable

As soon as an activity is selected, the Student Software will launch directly into the activity. Users can interact just as a student would, but no data is saved after exiting the activity.

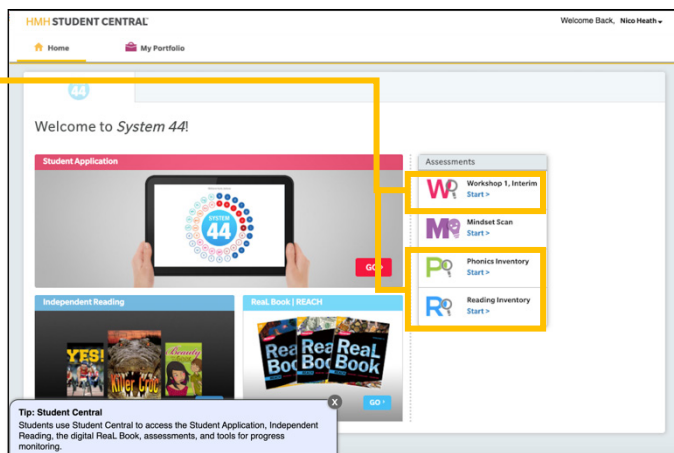

To return to the **Student Software Demo** menu, either complete the activity or click on the **Quit** button in the lower right of the screen. Click **YES** in the pop-up window. **Note that exiting System 44 Demo Mode is different from the READ 180 Demo Mode.**

Keep exploring until you are ready to return to HMH Student Central by selecting the previous tab or window.

From the HMH Student Central window, video overviews are available for **Workshop Assessment, Phonics Inventory, and Reading Inventory**.

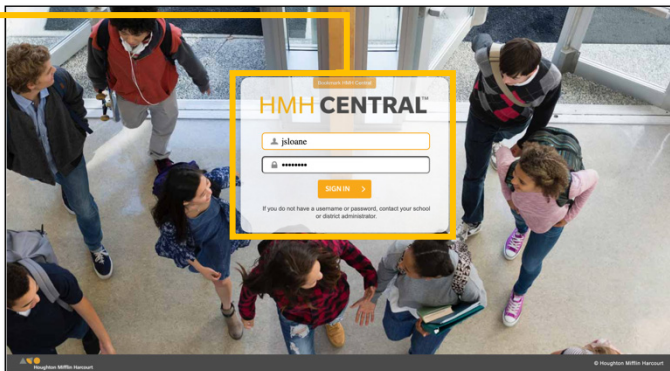

Click on the other areas of Student Central to learn more about them. The **Independent Reading** and the *Real Book* can be accessed through the Teacher Experience.

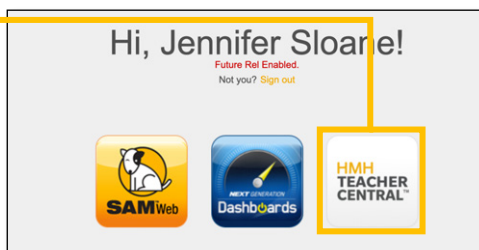

Next, return to the Student Experience/Teacher Experience screen by clicking the browser back button and this time select **Teacher Experience**.

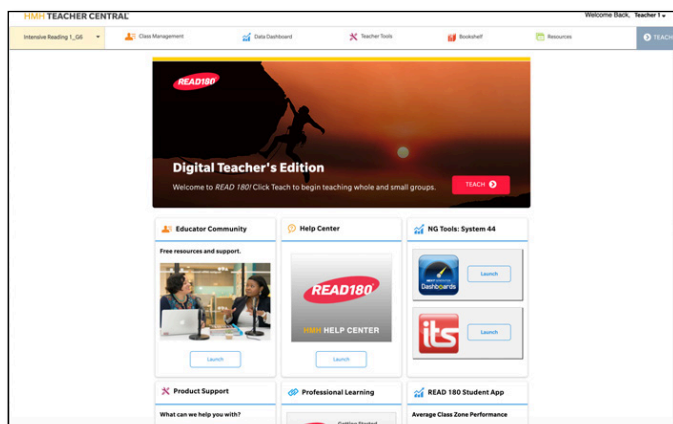

Sign into HMH Central with your provided credentials if needed.

Select the HMH Teacher Central icon. This will take you to the teacher platform.

Teachers with students in *System 44* will have access to all of the same content and resources as *READ 180*, with additional supports available for *System 44*.

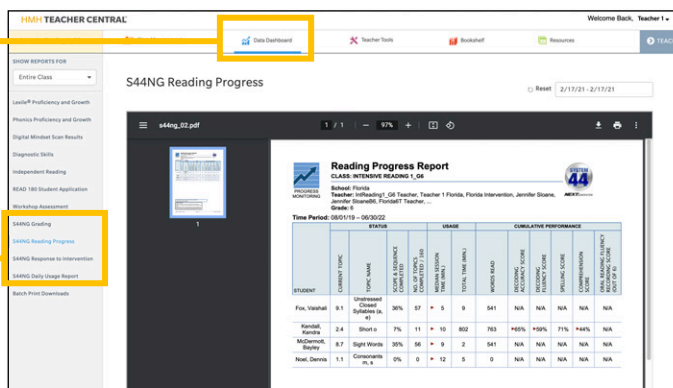

The **Student Software Demo** widget is available on the homepage. Here, teachers can access the same demo found in the student simulator.

NOTE: This is a new feature in 2021 that gives teachers full access to the Student Software activities.

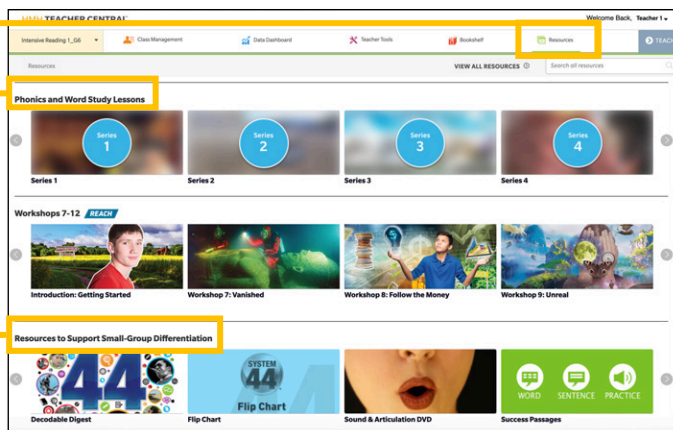

Spend time exploring the **Data Dashboard** tab. System 44 reports are clearly identified in the left-hand panel.

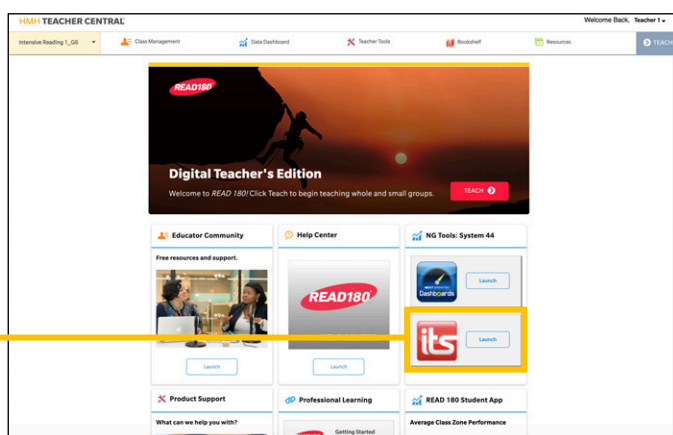

Reports cover student data from all areas of the program, including assessment, Student App, and Independent Reading progress.

Next, click on **Resources** to explore additional tools to support Whole/Small Group learning, independent reading, and professional development.

Click the **HMH Teacher Central** icon in the top left to return to the home screen.

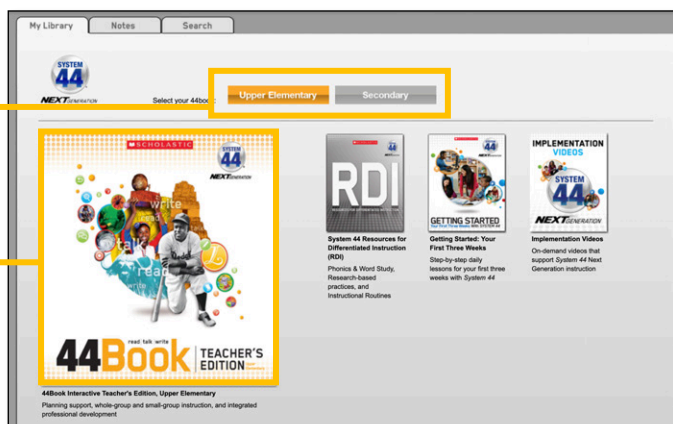

To access digital Teacher resources to support in-class or remote instruction, click **Launch** to open the **Interactive Teaching System (ITS)**.

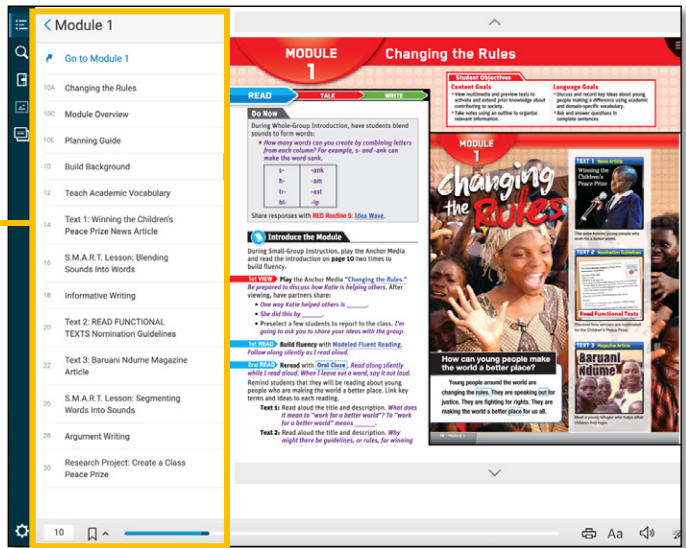

Click the **44Book Teacher's Edition** icon to access the digital Guide.

Use the buttons to select between **Upper Elementary** and **Secondary** content.

Access the **Table of Contents** from the left hand menu bar. Using the navigation arrows at the top and bottom of the screen, click through the available pages of the Teacher's Edition. Additionally, you can use the navigation bar at the bottom of the screen to slide pages or navigate to a specific page number.

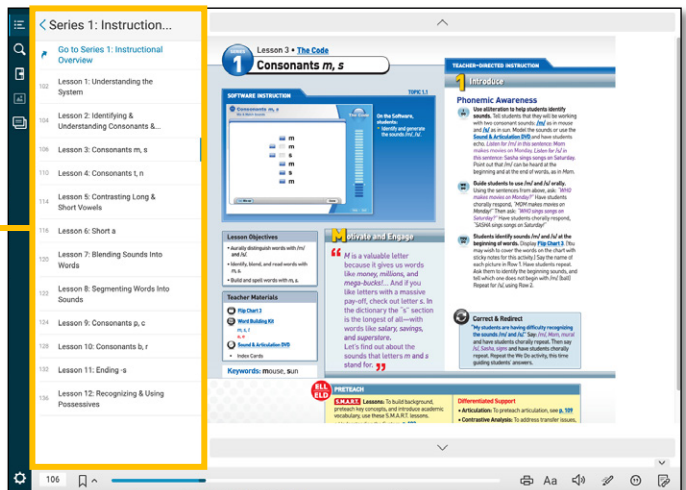

To return to the **ITS menu**, close the window or navigate back to the previous window.

Click the **Resources for Differentiated Instruction (RDI)** icon to access the digital guide.

Access the **Table of Contents** from the left-hand menu bar. Using the navigation arrows at the top and bottom of the screen, click through the available pages of the RDI.

To return to the **ITS menu**, close this window or navigate back to previous window.
