

Office 365 Email Migration: What You Need to Know

Outlook desktop application users should not notice any difference after email migration. Web email access, however, will change from the Outlook Web Application (OWA) to Office 365 Outlook as explained below.

Before Migration: Outlook Web App Experience

1. When you sign on to the **Outlook Web App** (OWA), you sign on to <u>https://mail.tusd1.org/</u> using your network employee ID (which may be either your employee ID or a configuration of your name) and network password.

After Migration: Office 365 Outlook Experience

1. You will now go to a new web address: http://outlook.com/tusd1.org

2. To sign on, type your district email address and your district network password.

- Enter your district email address.
- Enter your network password.
- Select the **Remember my credentials** checkbox.
- Click OK.
- 3. The first time you open Outlook online, you may be asked to set the Time Zone. Just set it to Arizona.
- 4. The new Office 365 Outlook interface will open.

Access All Office 365 Applications

1. In your browser, go to the following web address: http://portal.office.com
