How do I set up TUSD email on an Android phone?

Follow the steps below to set up your TUSD email on an Android phone.

Restore Connection: If you are trying to restore an email connection that no longer works, you may need to remove the old account first. See <u>Remove Account</u> on p. 7.

From the **Home Screen**, tap the **Menu** icon. Then, find and tap the **Settings** icon.

In **Settings**, select the **General** tab and select **Accounts & Sync**.

← Accounts & sync		On th Acco
Auto-sync data		
ACCOUNTS		
	ADD ACCOUNT	
0		

On the **Accounts & Sync** screen, tap **Add** Account.

From the Add Account screen, tap Microsoft Exchange.

Email Address: Enter your TUSD email address.

Format: FirstName.LastName@tusd1.org. This is based on the information Human Resources has on record, which should be your legal name).

Password: Enter your TUSD network password.

Tap Manual Setup.

Select the items you want to sync. Then, ap **Next**.

Enter an Account name. Then, tap Done.

Your account is configured! Your TUSD email will now be accessible through the **Mail** app.

Remove Account

To restore an account that is no longer working, you may need to remove the account first and then <u>add the account (p. 1)</u>.

From the Home Screen, tap the Menu icon. Then, find and tap the Settings icon.

In **Settings**, select the **General** tab and select **Accounts & Sync**.

← Accounts & sync	Select
Kicrosoft Exchange	
ADD ACCOUNT	

Select Microsoft Exchange.

Select your TUSD email account.

Click the options drop-down menu in the upper right and select **Remove account**.

Tap Remove Account to confirm.

Now return to p. 1 and follow the steps to add your account.
