

How do I install Office 365 Desktop Apps on my Windows home computer?

For Home Computer Use Only

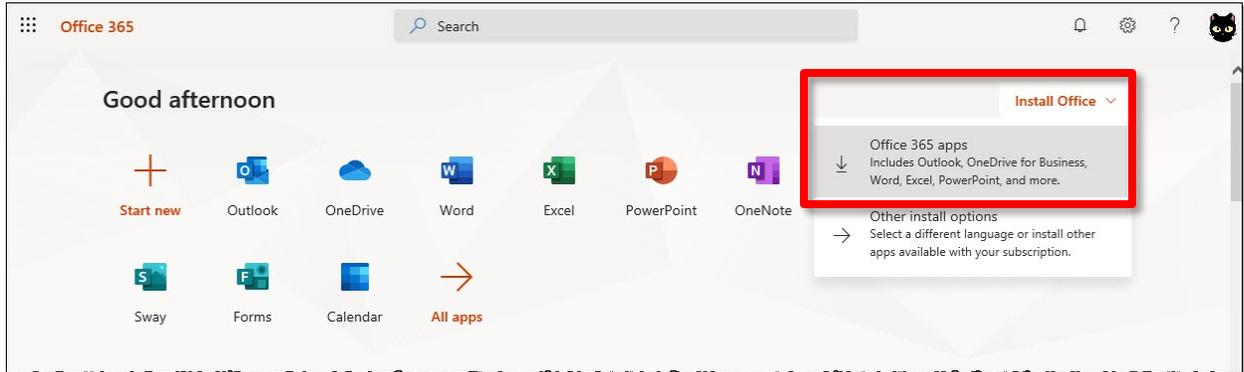

1. On your home computer, open your browser and go to the **Microsoft Login** page:
portal.office.com

2. Enter your district email address.
3. When you click in the **Password** field, you will be redirected to the TUSD sign in page.

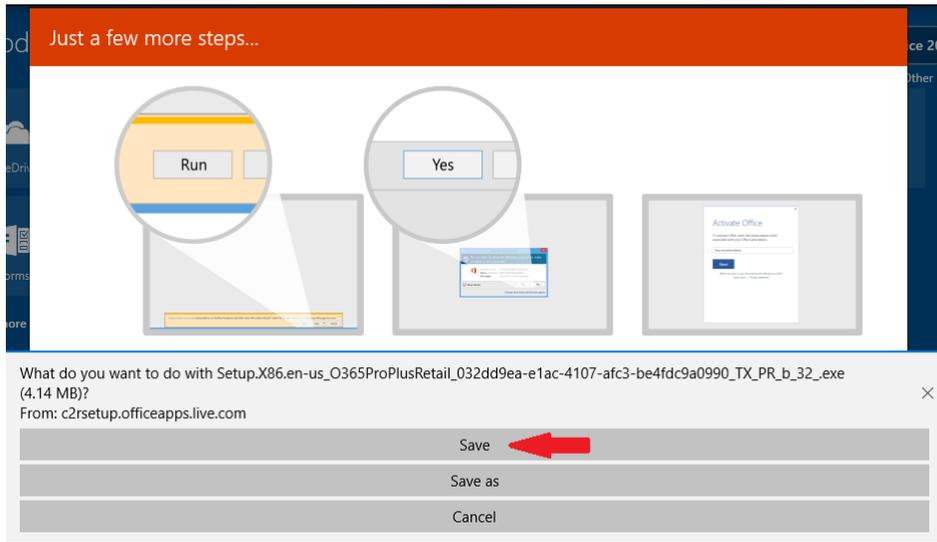

4. Enter your district network password and click **Sign in**.
5. The **Microsoft Office 365** dashboard opens.

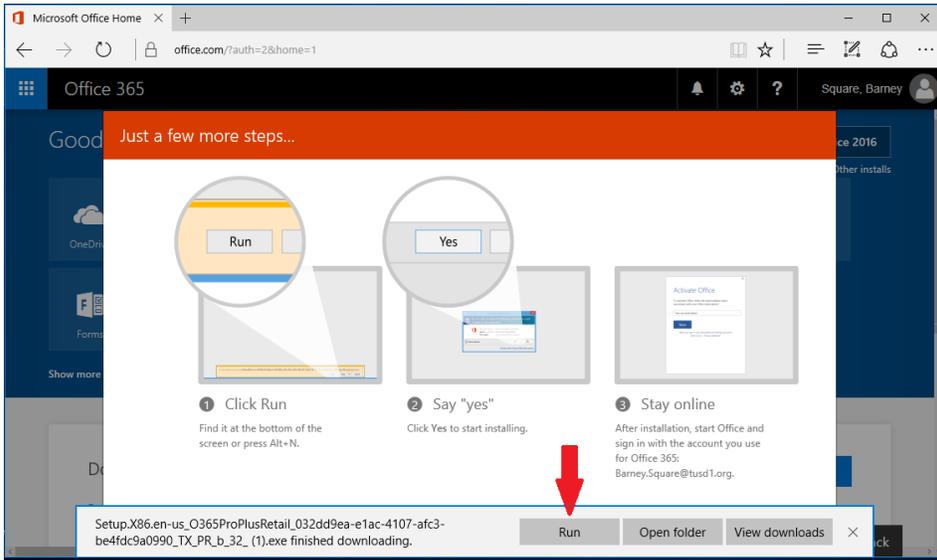

6. Click the **Install Office** button in the upper right corner and select **Office 365 apps**.

Don't Click the Install Office Button on District Computers.

7. Click **Save**.

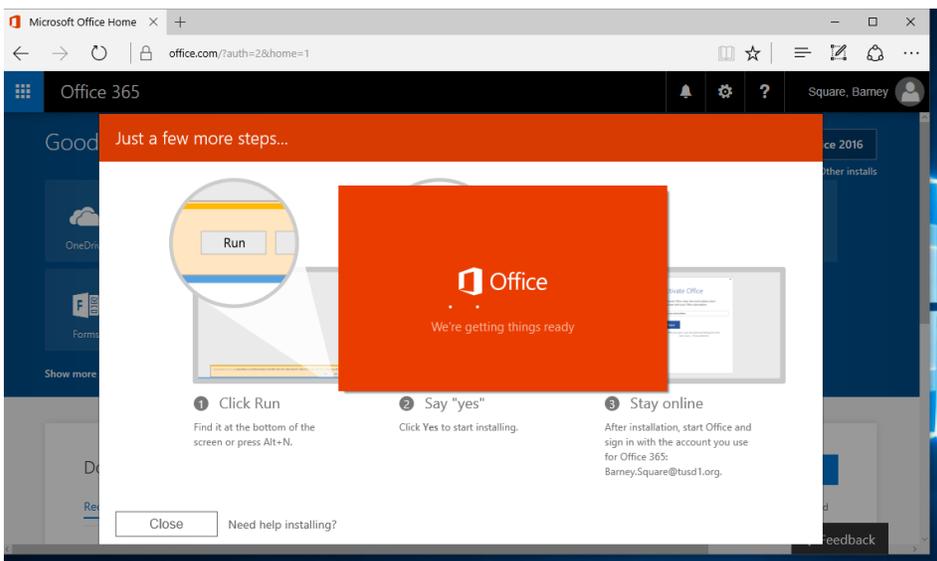

8. Click Run.

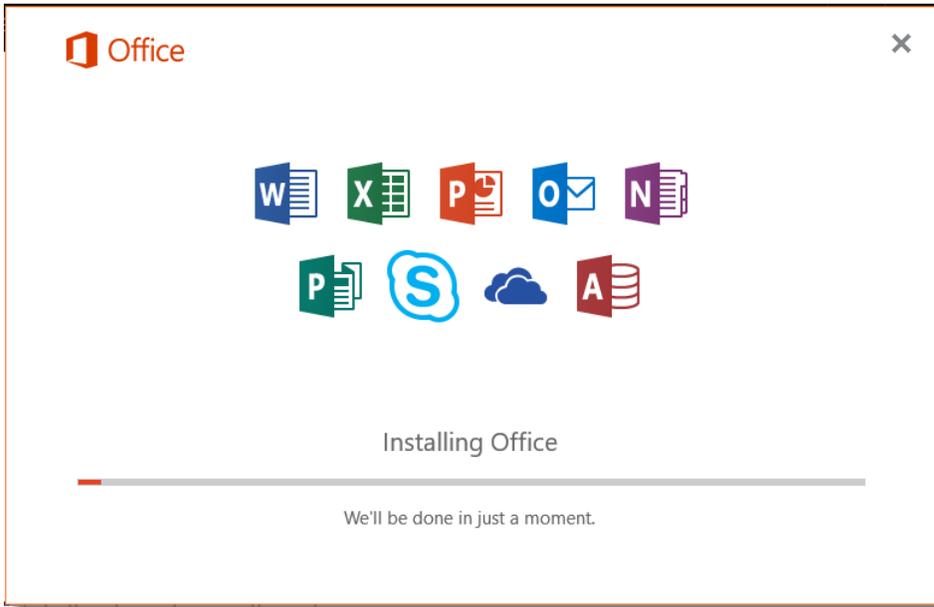

9. Click Yes.

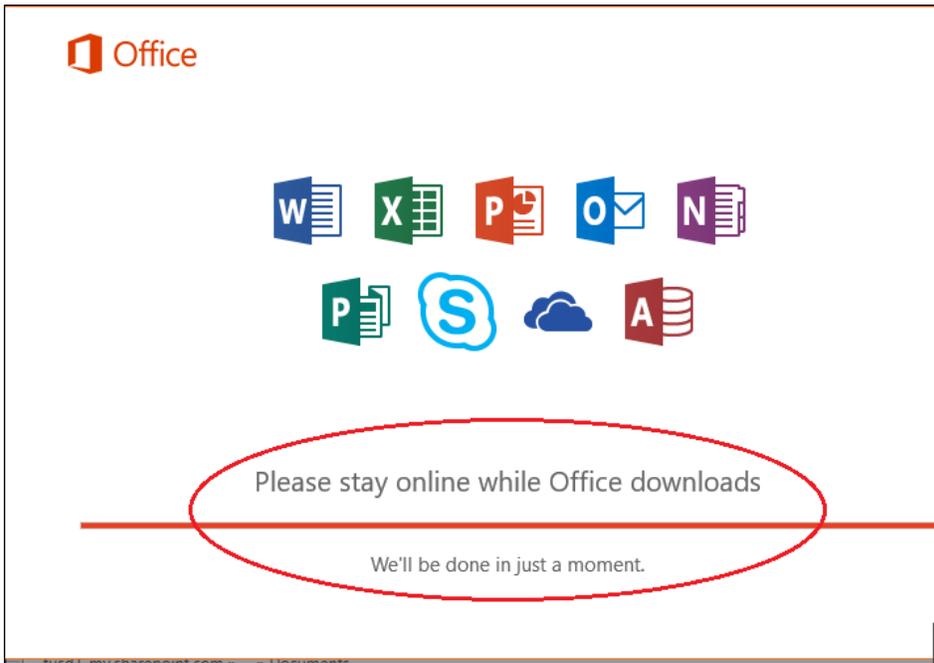

10. Installation starts.

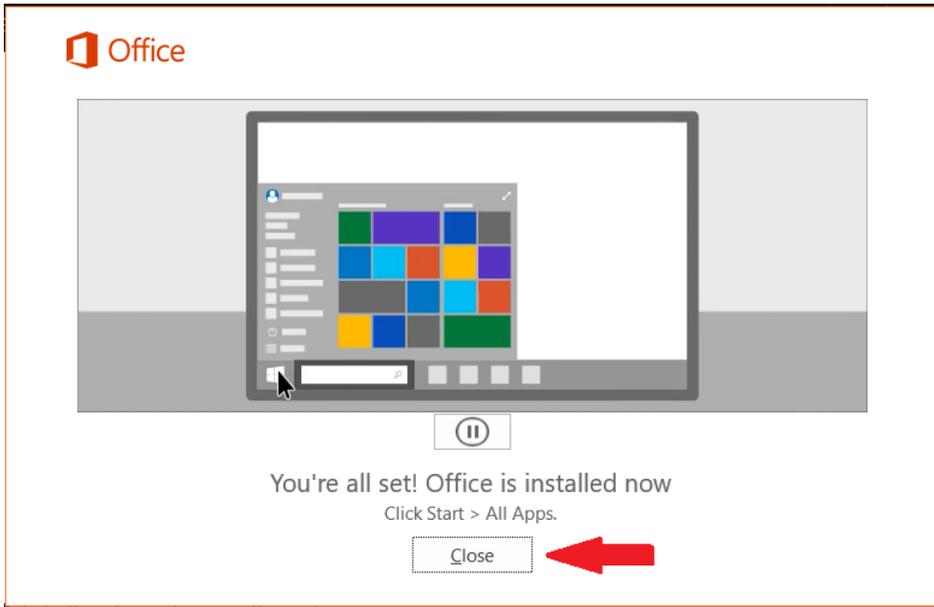

11. Watch the progress bar.

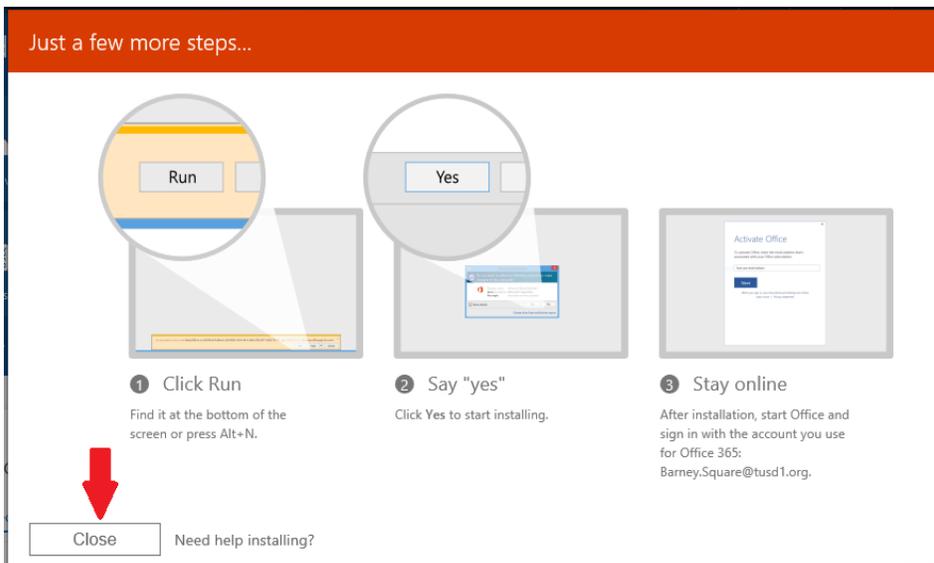

12. Follow the instructions to stay online during the download. Download time will depend on your Internet connection speed.

13. Click **Close**

14. Click **Close**.

15. **Office 365** applications are now available when you click the **Start** menu.
